CIRCULAR TRAILS PROJECT

VOLUNTEERS WANTED

Llanfechain Community Council has been successful in a bid to have 1 of 12 proposed circular walks in Powys created round our village, using European Funding.

The Project Officer needs our help in selecting and setting up the footpath which will use existing rights of way and quiet lanes for up to 5 miles. Thereafter Volunteers in the Community will maintain this especially way marked Community footpath, by keeping it clear and reporting any faults.

First we need to choose this circular route, and are looking for ideas. Then during this summer volunteers will be needed to help create the route, clearing undergrowth and vegetation, helping to install self-closing gates that will make this path user friendly for all ages.

If you are interested in the project and willing to get involved in anyway, please contact Annette Prince on 01691 828020 for more information. Volunteers will be fully insured, will have safety training on site and safety wear provided.

Time is short on this project; it needs to be completed by the end of this year.

Whatever your skills or abilities, we will be able to use your help.
